Summary

University graduate of Computer Science with an interest in full-stack software development. Latest technologies that I have been working with are React.js, MongoDB, and Node.js.

Education

California State University Northridge

Bachelor of Science, Computer Science

Graduation May 2021

Relevant Course work: Web Engineering, Human Computer Interaction

Projects

GameHub

- Used React.js and Material UI to build the user interface.
- Used Express.js to build the backend server and create RESTful routes. Used mongoose.js to create schemas and communicate with MongoDB.
- Maintaining and optimizing the website.
- Used axios to fetch from the backend server and display the data to the user.

CloudSystems

- A landing page for a fictional cloud computing company.
- Implemented the landing page starting from the design concept through deployment.
- Maintaining, optimizing, and improving the website.

Portfolio Website

- Built a one-page responsive website to demonstrate projects.
- Implemented the design using canva and fix any issues that arises on other devices.
- Maintaining and optimizing the website.

Skills

Languages: HTML5, CSS3(Sass), JavaScript (ES6+), Java

Libraries/Tools: React.js, Bootstrap 4, Git, GitHub

Databases: MongoDB
